

# UX Testing + UI Iteration

	<b>User Interface:</b> How could the styling of elements be changed to make a more visually appealing, clear, and space efficient layout? (ex: sizes, colors, fonts, alignment, etc.)	<b>User Experience:</b> What elements of the user experience could be improved to make the page more intuitive and more fun/satisfying? (ex: sounds, hover effects, press effects, etc.)
<b>User 1 Name:</b> Giovanni dominguez	<ul style="list-style-type: none"><li>Change the character to either be live action or comic version</li><li>Add color to fit the background of the comic cover</li><li>Center the text in the middle</li></ul>	<ul style="list-style-type: none"><li>When i click the character is plays sounds of the character</li><li>Make the hover effect bolder kinda hard to see</li><li>When i tap on the comic cover it changes cover</li></ul>
<b>User 2 Name:</b> Nathan acosta	<ul style="list-style-type: none"><li>Change character to all comics looks kinda weird half comic and half live action</li><li>Add more color around the heroes so its not just plain black</li><li>Add more font and theme to the paragraphs on the bottom</li></ul>	<ul style="list-style-type: none"><li>Add superheroes own sound when click on like spiderman theme song or hulk screaming</li></ul>
<b>User 3 Name:</b> Julian villery	<ul style="list-style-type: none"><li>Make the background of the text black and the text white so there isn't a random block of white</li><li>Have the text be a little bigger take up more space</li><li>Sizing of the characters looks good</li></ul>	<ul style="list-style-type: none"><li>Have the characters get smaller when clicked on</li><li>When characters are clicked on it should play that characters sound or theme</li><li>When click a character the other characters get darker</li></ul>
<b>User 4 Name:</b> eric	<ul style="list-style-type: none"><li>Sizing of spiderman cover and strange cover are smaller then the other covers</li><li>Make the text bigger and more of a fun font</li><li>The text could be white the background black</li></ul>	<ul style="list-style-type: none"><li>Crop hawkeye and thor so the hover effect only works when you hover over the character</li><li>When you click on the character make it so it shows that you clicked that character</li><li></li></ul>
<b>User 5 Name:</b> Justin tran	<ul style="list-style-type: none"><li>Make the text more closed in and bigger easier to read</li><li>When you click character the text background should relate to that character</li></ul>	<ul style="list-style-type: none"><li>When character clicks on give them sound like character or theme</li><li>When hover over the character add their names next to them or something to tell you who that character is</li></ul>

## UI Before Feedback (Screenshot / GIF)

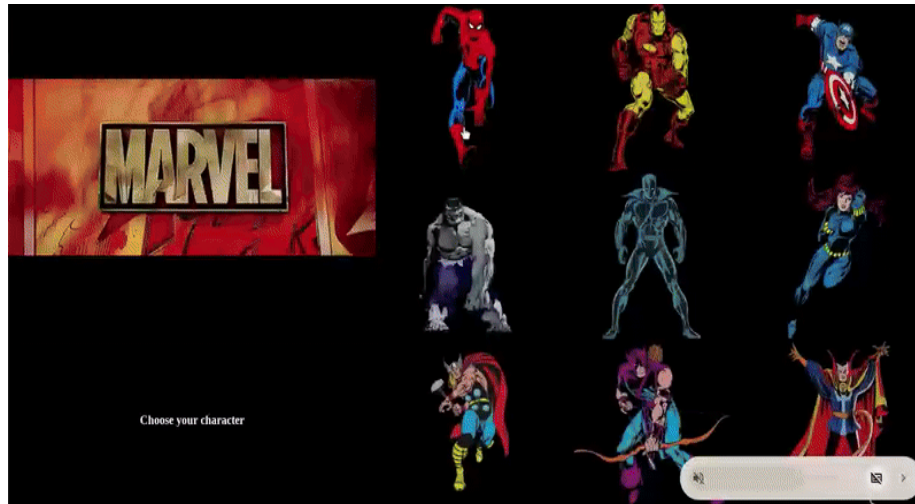

What trends did you identify in your feedback?

- Change the characters to be either all comic style or live action
- Make the text white and the background black
- When a character is clicked darken other characters
- Add color around the heros
- Make it so the text isnt touching the side and is in the middle

## UI After Feedback (Screenshot / GIF)

What changes did you make to improve your UI?

- Changed the heroes to old comic versions of them
- Changed the white square to be black and made the text white
- When you click on a hero it shows their color
- Centered the text for each of the characters bio
- When you click on a character all other characters darken
